in my laptop driver is not available i bought laptop in 25 June, 2013 and in new updated version of windows there is no my driver Do I have a different device version or? A: Try to install the device using an earlier OS or some older software like Dev-CAM. You can also download any Sony drivers from this link and install the same: Thanks. Q: FancyPie3 break in IE9 Our page has a fancyPie3 chart. We noticed that it breaks on IE9. In FF and chrome it looks fine. On IE9, it doesn't show the grid and the pie slices which I think is missing the background-color and border-color properties. We also noticed that the hiding of the legend is gone. I'm not sure if I'm missing a doctype or some other tiny thing. var percentData = [20, 20, 50, 20, 20, 20
