Steps to Use Lazy Nezumi Pro: Step 1 : Press the Setup icon and go to the main menu Step 2 : Select Nezumi Pro Step 3 : Enable Lazy Nezumi Pro After you install and activate the software you will be able to select it under Tools from the main menu. With Lazy Nezumi Pro you will notice that you can adjust the guide settings. To do this you will open the window by selecting Geometry and adjusting the values inside. How to Use the Application The application provides different types of tools for you to view and to work with. To start you will be able to choose from the below: Lines Arrows Guides Pencils Lines are available for you to use on your canvas and to make new lines. You can adjust the length and the color of the lines that you made. Arrows can be used to create new lines and to move your cursor around your canvas and you can use the arrows to apply different effects. You can move your cursor closer to your canvas and drag the arrows to create new points. Guides are very effective when you are trying to make straight lines. These guides are easy to use with and you can adjust the length of the line as well as the color. You can also adjust the smoothness of the line. Pencils are used for drawing and these provide you with a very easy tool to create your own sketch.
