The HERO HERO2 is a revolutionary new camera for professional and enthusiast photographers who want to create stunning videos and photos with incredible motion picture-style quality, including super-smooth video. HERO is the only camera that takes 4K video footage and shoots it in super-slow motion. It's a breakthrough in camera technology for users who want to shoot video like a movie. HERO has a revolutionary new user interface that makes it extremely easy to navigate. This streamlined

---

menu and control system provides up to 50% faster and more intuitive navigation and makes it possible to do things that were impossible before. The HERO2 and HERO2 Silver both have a huge new 4.3-inch display with touchscreen controls, and the screen also functions as an infrared touchpad when using the HERO2 Silver's remote control. HERO2 is the most advanced high-performance camera ever created for photos and videos, with up to 12.1 million pixels and an exceptional 5.7-megapixel CMOS sensor. It's as powerful as the SLR cameras you're used to, yet small enough to fit into your pocket. It's the camera of the future.

- \* Image and video quality is guaranteed to be superior to that of the original HERO
- \* Improved video quality
- \* A new optical image stabilizer
- \* Same great ergonomics and intuitive control as the HERO1
- \* Improved audio quality: S-Log2
- \* Same battery and auto focus, improved image stabilizer, electronic viewfinder, menu, and control system
- \* New user interface, built-in infrared touchpad
- \* Faster and more intuitive menu system
- \* Larger, higher-resolution sensor than the original HERO
- \* 4.3-inch display, touchscreen
- \* 4.3x wider angle of view
- \* Higher frame rate
- \* Faster start up time
- \* Improved autofocus performance
- \* Improved audio quality

HERO2 Silver is the ultimate camera with all the power of the HERO2 Silver, but with only two buttons and a smaller camera body. It is the ultimate DSLR replacement for those who want the power and convenience of a camera that fits into their pocket.

- \* The same great ergonomics and intuitive control as the HERO
- \* Same great ergonomics and intuitive control as the HERO
- \* Lower weight, lower price, smaller form factor
- \* 4.3-inch touchscreen display
- \* Improved autofocus performance
- \* Improved image stabilizer
- \* 4.3x wider angle of view
