DPW: Deleted Photos  
It's a very good tool to recover photos or videos from your phone's and tablet's memory. You can delete all pictures from phone

#### **What's New in the?**

The Microsoft Clipboard stores and recovers sensitive data, such as passwords and forms. It is accessible to Microsoft Edge, Microsoft Windows, Microsoft Office, and Windows Live Mail. This free utility provides an easy way to recover lost passwords in popular browsers. You

---

can access the password section of web sites, and view and store them in the clipboard. Password recovery can be done using information from Clipboard, including forgotten password and forgotten email address. Perform password recovery without requiring any technical knowledge. No system protection is needed. Press Ctrl+A to access the Clipboard. Copy the passwords into the clipboard, or click '+' to add the clipboard entries to a single list. Click 'Paste' to insert the list into the input fields. The program creates secure new logins for new accounts automatically. The logins can be set as default using a predefined list. This list can be saved to a file, and later used as default logins. The program stores the logins in a secure location, and securely stores the files with passwords into an encrypted archive. Main features No installation required. Runs directly from your USB flash drive. Password recovery without technical knowledge. No system protection required. Clipboard recovery without the need for separate account information. Password lists can be saved to file, and later used as default logins. Secure archive location, and password files. Secure new logins created automatically. Password recovery from web browsers, including Microsoft Edge, Windows Live Mail, Microsoft Office, and Windows. Can be used without any prior knowledge of computers or IT security. Clipboard recovery can be configured to automatically send the recovered data to the email address specified in

---

the Clipboard. User interface and options The interface is represented by a small toolbar on the bottom right of the screen. The toolbar provides a lot of features. Default commands are listed in a blue toolbar button. The blue button allows you to reset the password for all accounts at once. It allows you to select the account to recover. You can select an input field to recover a password. Click the button to add a new account to the list, and edit it. Press '+' to add the clipboard entries to a single list. Press '-' to clear the clipboard. Press '&' to copy selected passwords into the clipboard. Press '-' to delete the selected entry from the clipboard. Press '>' to move the selected entry to the end of the list. Press '
