This season's Squad Updates will stream live on Twitch, where members of our FIFA Global Series of Live Events will broadcast pre-match showmatch action on FIFA Twitch channels at kick off times around the world. Additionally, Season Pass and Ultimate Team members will be able to test FIFA 22 on a number of platforms. In FIFA Ultimate Team, this season we are testing a new Charge system that will allow players to purchase skills and attributes from one another to create more powerful FUT players. For all other FIFA Ultimate Team items, across all platforms, this season's Season Ticket and Packs are available to download. In the Ultimate Team game mode, Ultimate League will be available for all owners, and new for this season, is the ability for owners to create Team of the Season which could be used in Ultimate League. Read on for all the EA SPORTS news in FIFA 22: FIFA 22 details Test FIFA 22 at a live event this season Introducing HyperMotion Technology A look at the new Charge system FIFA 22 introduces "HyperMotion Technology", a revolution that drives the gameplay for the first time ever in a FIFA. This new intelligent engine integrates data from more than 20 players for the first time ever. Dynamic intelligence now affects every aspect of the game: creating more intelligent moves for your players, more intelligent player movement patterns, detecting more intelligent player collisions, and so much more. Since the beginning of PlayStation's 27-year history, we've given our fans the ultimate interactive sports franchise experience with PlayStation. In FIFA, we break down the barriers between video games and sports, inviting our fans to enjoy the game more than ever before. With our multi-sport focus, we extend the gaming world to more than just the playing field. What you can expect from FIFA 22 FIFA 22 builds on years of development across all areas of the game. Whether you're playing as a striker, in midfield or as the goalkeeper, you'll have the most authentic and precise moves available. More intelligent touches, moves and balls are the perfect compliment to your individual style. Tactical depth makes every game feel like there's a difference in every situation. Ilargi: Now we can appreciate how important video games are, because a number of people that before would just have passed through life as zombies are suddenly a lot more interesting. This morning, I turned on

Simulate the beautiful game with authenticity in all its forms: dribbling, shooting, and of course passing, with de-stylized, authentic gameplay that lets you create magic wherever you play. From gameplay improvements in all areas, including momentum, ball physics, and impact, and for the first time ever, context-sensitive tooltips, to all-new dribbling techniques, stutter steps, and flicks, the new FIFA lets you take your skills to the next level. Gameplay Set-pieces Score a goal by heading the ball towards the top corner or set a goal-keeper, giving you a chance to win a penalty! Who knows, maybe that tall defender you favor might send you through on goal? Goalkeeper positioning is strategic, with managers now able to switch when the time is right, and free kicks much more realistic. 5-vs-5 Get stuck in for a serious showdown, or play in your preferred style by selecting the 5-vs-5 tactical match. The key to victory is to control the flow and rhythm of the game - with new dribbling techniques like the Circle Dribble and the Rolling Dribble, you will be able to execute the play as swiftly as possible and avoid a few of your opponents. Stuttering Tackle challenges and run faster by deliberately stuttering - the instinct to pick the right momentum - allowing you to face multiple opponents. We're giving you more of the game than ever before, including actions such as sprinting, pressing a challenge, run tracking, feints, and more. Ball physics The new game engine brings a complete overhaul of the ball physics. Gone is the spinning, unpredictable ball that resulted in shots hit long and erratically, replaced with a more responsive and varied ball, featuring precise control of speed, rotation, and acceleration that will give you more touches than ever before, while the FIFA ball physics delivers authentic ball control on strikes and headers, allowing you to control the game and create that "goal" feeling. New Skill Games New Skill Games really capture the feel of your favorite sports, with new Quick Kick games, a new one touch passing rule, and a new Balance-O-Meter Game. The multi-pitch controls in the new Pitch placement will have you dancing on the spot, particularly if you're at a stadium that has 2 or 3 pitches. Pitches are now interactive, and you can
