As the name implies we are a sports bar with a location that is behind the walls of an adventure park. We were built for families and single adults alike with a great location right in the heart of the action of Bear Mountain, Southern Park and the Triple Eight Furnace. Jimmy's sports bar has a sophisticated and upbeat feel that is made for fun and great times. We have a nice atmosphere, nice staff, decent food and a pretty nice selection of beer and wine.We don't serve underage kids and it is a non-smoking establishment. Jimmy's has a great atmosphere that is conducive for all kinds of people. Whether you are looking for a place to watch a game or play cards, Jimmy's is the place for you. All the games are shown in the bar area while the rest of the room is available for other activities. Guests at our restaurant enjoy a great selection of pub food including Flatbreads and tacos. We have an extensive selection of craft beers, wine and malt liquor. The beer menu includes most of the domestic craft beer brewed in the area. The wine menu features local wines from the east coast as well as imported varietals. Our menu also has a variety of burgers, sandwiches and other common bar food. We also offer local live entertainment several nights a week. Some of our popular nights are Jukebox Jams where a talented local band or DJ takes center stage in the bar, Drink specials on Thursdays and a good selection of Irish whiskey and Irish cask beers on St. Patrick's Day.Q: Where are the syslog events stored on Debian 9 Jessie? I would like to have a file of syslog messages (all the messages from all applications) for post-mortem purposes. How can I get a list of currently logged in processes, and from there where are their syslog messages stored? I have tried to find /var/log/messages.log.1.gz but 1cdb36666d
